

# ■ Assembly instructions

## Pop Up Display

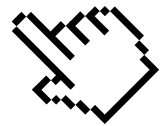

### A) Supplied material

- Pop Up Display structure
- Printed canvas
- Carry bag
- Halogen or LED lamps (optional)

See video on our channel!  
Click here!

### B) Mounting the structure

Take out the structure of its carry bag and place it standing on the floor.

1. Handle two central branches of the structure and deploy it as much as possible.
2. Connect together all the plastic ends inside the structure.
3. Once all the twenty (20) connexions are completed, raise the structure to replace it vertically.

### C) Installation of the canvas

4. Take the canvas and start fixing it on the structure from the top of the left side.  
On the back of the canvas, there is a band of velcro sewn around the edge. Just put the velcro on the back of the canvas on the velcro stuck to the front of the structure.  
There is model with canvas on the sides and another model with canvas on the frontage only.

## Pop Up Display

### C) Installation of the canvas (*continuing*)

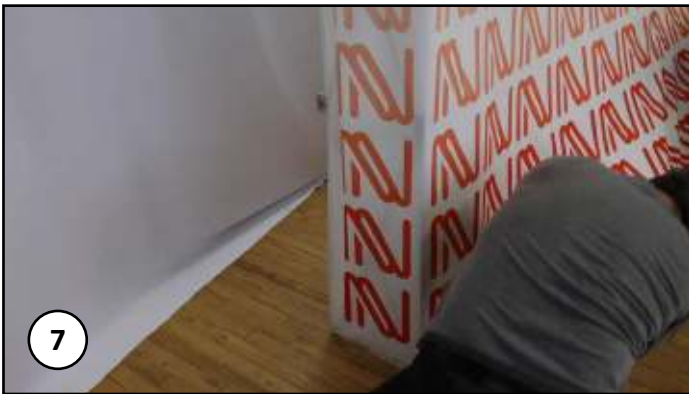

5. Once the side is fixed, continue to the right by placing the velcro on the facade.

6. Continue to the upper right end.

7. When the top of the canvas is fixed with the velcro, go down the canvas to the bottom left.

8. Continue to place the velcro of the canvas on the velcro of the structure on the entire strip at the bottom.

9. Finish by fixing the corner of the canvas on the lower right side.

10. Halogen or LED lamps may also be added to the top of the structure (optional).
