

■ Assembly instructions

Ez-Tube

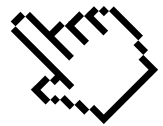

A) Supplied material

- Ez-Tube structure
- Printed canvas
- Carry bag

See video on our channel!
Click here!

B) Assembly of the structure

Make sure you have all the required material to assemble your Ez-Tube.
Position flat on a table the four extrusions to assemble the frame.

1. Connect together all the tube parts. Each tube section links together all the parts with a rope.
2. Install the inferior left and inferior right corner to the feet.
3. Make sure the push button is correctly engaged at each connexion.
4. Finalize the assembly of the complete structure.

C) Installation of the canvas

5. Thread the canvas over the structure.

6. Slide the canvas down to put it completely on the Ez-Tube.

7. Grab the zipper and slide it to the right.

8. Make sure that the tension of the fabric is uniform everywhere and that there are no folds.
